PROFESSIONAL SUMMARY

Cum Laude Information Systems graduate (GPA 3.71) who bridges business needs and technical execution — translating stakeholder problems into solutions that teams can actually build. Backed by hands-on experience across software development, cloud infrastructure, and data, gained through internships and leadership roles in cross-institutional organizations, with a track record of managing partnerships, coordinating cross-functional teams, and delivering outcomes on both sides of the table.

EDUCATION

Universitas Ciputra, Surabaya

Surabaya, Indonesia

BS in Information Systems Cum Laude (GPA: 3.71)

2026

- **Thesis:** Modeling and Forecasting Stock Prices in the NASDAQ-100 Index Using ARIMA and SARIMA, built a Python-based time-series pipeline across 5 large-cap stocks; all models achieved below 2% MAPE.

WORK EXPERIENCE

AXRAIL.AI

Malaysia

Business Analyst & Cloud Engineering Trainee

January 2026 - April 2026

- Led client discovery for Axrail, translating client business needs into a product requirements document (PRD) that guided a 3-person cross-functional team through app development and testing.
- Directed UI development and cross-checked every feature against the PRD before handoff to QA, ensuring the final product matched requirements exactly.
- Presented the finished solution to Axrail's Solutions Architect, Axrail's managers, and Axrail's Client representatives — awarded "Best Team" with a fully working, 100% bug-free product.
- Built hands-on AWS serverless experience (25+ Lambda, DynamoDB, Cognito, API Gateway) through a company-wide sandbox project, while studying toward the AWS Certified Developer Associate exam.

Apple Developer Academy @ UC

Indonesia

iOS Developer Intern

March 2025 - December 2025

- Served as Project Manager across 4 of 6 projects, leading teams of ~5 from concept through development and shipping.
- Led and managed 2 months of stakeholder engagement with PT. Ciputra Group (real estate) to scope building-management pain points, then directed development of "Pelican", an app for tracking and assigning building maintenance work, up until stakeholder app presentation.
- Ran client discovery for "Menata" (an interior design/3D modeling app) translating client needs into product direction as both PM and developer, as well as shipping app demo to interior designers for professional use
- Built 5+ apps across iOS/iPadOS/macOS in Swift — including fillé (casual game) and "CatatIn" (a personal finance organizer) published on the app store

Universitas Ciputra International Community

Indonesia

Coordinator of Communications and Partnership

August 2024 - October 2025

- Served as primary representative for 5+ deans and directors of international university partner visiting Universitas Ciputra, including 2+ MOU signings and 5+ visits
- Supervised teams of ~10 for 10+ webinars and events of 200+ guests as part of the community's international programming
- Coordinated study excursions for 6+ international universities, 45+ international students visiting, acting as their main point of contact throughout their stay in Indonesia

ACHIEVEMENTS & PUBLIC IMPACT

Recurring Guest Speaker
