PROFESSIONAL SUMMARY

iOS developer who builds end-to-end, mainly focusing on Swift/SwiftUI apps. Over the past 2 years, I've shipped 5+ production apps through the Apple Developer Academy, architected enterprise-scale cloud systems at AXRAIL.AI (86 Lambda functions, 100+ automated API endpoints), and led high-impact initiatives in community partnership and data governance. My strongest work includes Menata, an iOS app using RoomPlan, Object Capture, and RealityKit for 3D room and object modeling, and CatatIn, a macOS financial management app built from 20+ stakeholder interviews.

EDUCATION

Universitas Ciputra, Surabaya

Surabaya, Indonesia

BS in Computer Science Cum Laude (GPA: 3.71)

Expected 2026 · Available Full-time

- **Thesis:** Modeling and Forecasting Stock Prices in the NASDAQ-100 Index Using ARIMA and SARIMA, built a Python-based time-series pipeline across 5 large-cap stocks; all models achieved below 2% MAPE.
- **Relevant coursework:** Data Analysis, Software Engineering, Information Systems, Research Methods.
- **Activities:** Apple Developer Academy (2025), Assistant Lecturer, Coordinator of Communications & Partnership, UC International Community, Best Innovation Award at ISPARK 2024.

WORK EXPERIENCE

Apple Developer Academy @ UC

Indonesia

iOS Developer Intern

March 2025 - December 2025

- Engineered 5+ production-ready apps across iOS, iPadOS, and watchOS using Swift, achieving an average 4.8/5 user satisfaction score across all pilot testing cohorts.
- Led end-to-end product development from stakeholder interviews and Figma prototyping (7+ iterations) through UAT and launch, across financial, logistics, and travel planning apps.
- Managed cross-functional agile sprints using Jira, Trello, and Miro; reduced sprint blockers by 31%, compressed design review cycles by 27%, and maintained 100% on-time delivery across all projects.

AXRAIL.AI

Malaysia

AI Automation & Cloud Engineer (Management Trainee)

January 2026 - April 2026

- Architected and deployed an AWS Gadget Management System (GMS) using AWS CDK (Python) and React 19, integrating 86 Lambda functions with a DynamoDB single-table design (14 GSIs) to automate 100+ operational API endpoints and procurement workflows, including AI-powered OCR (Textract) for invoice processing and automated PDF handover forms with digital signature capture.
- Engineered a fully serverless command center across 9 modular CloudFormation stacks (100% IaC via CDK) with Cognito auth, X-Ray distributed tracing, SQS FIFO async queues, and Amazon OpenSearch for real-time full-text discovery.
- Collaborated with a 15-person development cohort on joint AWS projects, producing BRD-style technical documentation that standardised problem-solving approaches across the team.

Fairytale Wedding Organizer

Indonesia

Operations & Logistics Analyst

February 2024 - December 2025

- Coordinated end-to-end logistics for multi-vendor events serving 200+ guests, maintaining a 98% on-schedule delivery rate and a 41% reduction in day-of escalations through structured process controls.
- Built vendor tracking systems to monitor commitments and delivery milestones, eliminating manual follow-up and improving cross-vendor reliability.

- Leveraged client feedback and referral data to refine engagement strategies, driving a 40% increase in repeat referrals and 3+ new vendor partnerships per quarter.

LEADERSHIP EXPERIENCE

Universitas Ciputra International Community

Indonesia

Coordinator of Communications and Partnership

August 2024 - October 2025

- Spearheaded data-informed digital campaigns targeting 200+ international students; analysed engagement metrics across 3 platforms to elevate event attendance by 40%.
- Brokered and documented partnership agreements with 10+ global universities, structuring 5 joint initiatives that expanded cross-institutional engagement by 53%.
- Galvanised a 10-member team across 7 cross-cultural programs; implemented task-tracking protocols that maintained a 97% completion rate and reduced delivery lag by 33%.

Universitas Ciputra Entrepreneurial Administration

Indonesia

Graduate Profile Data Coordinator

August 2024 - November 2025

- Streamlined data governance and validation pipelines for 1,000+ graduate profiles in Excel and Google Sheets, reducing reporting errors by 25% and accelerating report turnaround by 40%.
- Managed a 5-member team with structured accountability checkpoints, achieving a 99% on-time verification rate across 3 consecutive data cycles.

SKILLS

iOS & Product Development: Swift, SwiftUI, UIKit, iOS/iPadOS/macOS development, Figma (wireframing & prototyping), UAT, product roadmapping, stakeholder interviews.

Programming & Tools: Python, JavaScript, C#, HTML/CSS, JSON, REST APIs, Git/GitHub, Jira, Trello, Miro, Agile/Scrum.

Additional Technical Range: AWS CDK, Lambda, DynamoDB, Cognito (cloud/serverless architecture) · ARIMA/SARIMA forecasting, Excel/Google Sheets, Jupyter Notebook (data analysis).

Soft Skills: Leadership & team management, stakeholder management, public speaking, cross-functional collaboration, technical writing.

PROJECTS

Menata - iOS App

Apple Developer Academy

- Built an iOS app enabling interior designers to create 3D room and object models using Apple's RoomPlan, Object Capture, and RealityKit frameworks.
- Designed the end-to-end scanning-to-arrangement workflow, letting designers scan rooms, capture furniture, and arrange models in an interactive 3D environment.

CatatIn - macOS Financial Management App

Apple Developer Academy

- Conducted stakeholder interviews with 20+ micro business owners to define requirements for a macOS financial management app; translated insights into a product roadmap that achieved 95% positive feedback and a 37% improvement in transaction visibility.
- Developed and delivered a business case and ROI analysis to 20+ investors and business owners, securing advisory interest from 3 stakeholders for the next development phase.

AWS Gadget Management System (GMS)

AXRAIL.AI

- Architected and deployed a full-stack IT asset lifecycle platform using AWS CDK (Python) and React 19, featuring 86 Lambda functions and a DynamoDB single-table design with 14 GSIs to handle 100+ API endpoints.
- Automated procurement workflows by integrating AWS Textract for AI-powered OCR, reducing manual data entry for invoices.

ACHIEVEMENTS

Leadership Foundation Training Speaker

August 2025

Universitas Ciputra Surabaya

- Speaker, Leadership Foundation & Team Dynamics, delivered a 60-minute keynote to 50+ students on leadership frameworks, team dynamics, and high-performance mindset; achieved a 93% post-session satisfaction rating.

TEDxUniversitas Ciputra Student Speaker

May 2025

Universitas Ciputra Surabaya

- Speaker, Growth Mindset & Resilience, led a 20-minute interactive session for 50+ attendees, generating a 41% increase in post-event workshop registrations.

Most Outstanding Business and Societal Innovation

November 2024

TAR UMT Malaysia ISPARK International Pitching Competition

- Innovator, Eco-Straw Sustainable Prototype, analysed market gap and designed a biodegradable straw alternative from fruit peel waste; pitched to 11 international judges, outcompeting 27 teams across 7 countries.
